Client Testimonials

"We did loads of research when choosing live entertainment for our recent wedding, so having found Roger Styles we were delighted when he agreed to play for us. The booking process was a breeze and we were given a choice of either 2 evening sets or a 3 set option which also included an acoustic daytime set. A very talented musician filling the venue with sound, simulating multiple instruments with the impressive use of a loop pedal. He has an extensive playlist to satisfy the demanding tastes of every generation. Playing two brilliant one hour sets during our evening reception he was a big hit with the guests, encouraging the very young and not so young off their feet. He also demonstrated a great deal of flexibility when performing, offering to break the second set into two smaller sets to accommodate a late change in timings for other activities. Roger is a genuine and friendly guy, it was a pleasure having him around and mixing with people during the breaks. I hope we have the opportunity to book him again at another event in the future and we would recommend him to others without hesitation. Thanks for being part of our day and making our evening such a great success."

Mark and Sue Granger, Buckland Tout-Saints Devon

"It is impossible to sum up just how amazing Roger Styles is. He is able to play outside in a relaxed summer like atmosphere, be full on entertainer inside, as well as background or dance music, he fulfilled all this and more his music quite frankly perfected our day. He is immensely cool in his style, loved by the teenagers and funky twenty year olds at our wedding but also adored by our elderly parents and relatives. One of the most precious moments of my sublime wedding day is Roger Styles starting to play "our song" (that he had learnt for us) as we started to walk up the aisle, I instantly started to well up - truly incredible. Book him - you won't regret it! The greatest testament is that the only music we have wanted to listen to over the few days following the event were the ones he played, our only problem now that the original versions don't sound as good as Roger Styles!"
